

Pro-Track Mentoring Program

About The Program

This is a one-year mentoring program with two possible goals for two different audiences: first is to help qualify mentees for membership in the National Speakers Association (NSA) with twenty paid presentations or earning \$25,000 in speaking income and second is to help NSA members improve their careers.

How It Works

There will be a minimum of twelve monthly meetings held during the year – two face-to-face meetings and ten tele-mentoring sessions. The live meetings are scheduled for December 2, 2007 and December 6, 2008. The number of meetings may be changed by mutual agreement between mentor and mentee.

During the monthly meetings, mentees will report on the results of their activities. Mentors will provide input, suggestions, guidance and accountability to help mentees reach their goals. Between the meetings there will be assignments depending on the goals of individual mentees.

Mentees will select a Primary mentor and a Secondary Mentor. The Primary mentor will be responsible for following-up on assignments, providing feedback, answering questions and making suggestions for further activity. The Secondary Mentor will be available to answer questions and provide additional input.

About The Mentors

All mentors are NSA members and successful professional speakers who are volunteering their time to assist aspiring speakers to qualify for membership in the National Speakers Association and help NSA members to achieve greater success in the profession. Mentors may receive a small stipend to defray expenses.

Qualifying For The Program

Those interested in the Pro-Track Mentoring Program must complete an application form indicating that he or she has the potential for presenting twenty paid presentations or earning \$25,000 in speaking income during 2008 or is already an NSA member who has the potential for substantially growing his or her business.

Eligibility

Anyone who has graduated from the NSA/NC Pro-Track program is eligible for the mentoring program.

The Cost

Upon acceptance into the 2008 Pro-Track Mentoring Program a \$1,395 nonrefundable investment will be due to secure the applicant's position in the program. This fee includes attendance at the 2008 NSA Northern California Chapter meetings and must be paid no later than the first tele-meeting in January.

No Guarantees

Participation in the Pro-Track Mentoring program does not guarantee that mentees will qualify for membership in the National Speakers Association. The success of the participants is solely up to them.
